Sony α1	√	√	√	√	-	√	√	√	√	√	√	-	-	-	√	√	Type-C to Type-C USB LN-UCUC-A02	V1.31	1. Please enable the "PC Remote" function of the camera first. The specific settings are as follows: Network->Transfer/Remote->PC Remote Function->On; or Network->PC Remote Function->On. 2. When using the electronic focusing function, please set the lens to AF (auto-focusing) mode and the camera body to MF (manual focusing) mode, otherwise the electronic focusing function cannot be used. 3. In video mode, the camera body's 5-axis anti-shake function will be automatically turned off. To turn it back on, go to Menu->Image Stabilization->SteadyShot->Enhanced/Standard. When used with a lens that has anti-shake function, the lens anti-shake function is not affected. 4. To use the camera playback function normally, please set the destination for saving static images in the PC remote function to "Computer+Shooting device" or "Only Shooting device". 5. When using the photo function, to avoid discrepancies in the number of photos taken, please set it as follows: Network->Transfer/Remote->PC Remote Function->Static Image Save Destination->Only Shooting Device. 6. When using HDMI (such as connecting to a monitor), the camera screen display settings are as follows: Go to the camera settings menu->External Output->HDMI Info Display->Off.
Sony α9 II	√	√	√	√	-	√	√	√	√	√	√	-	-	-	√	√	Type-C to Type-C USB LN-UCUC-A02	V2.00	

Camera Model	Photo		Video		Live Preview	Shutter Speed Adjustment		Aperture Adjustment		ISO Adjustment		EV Adjustment		Zoom (Digital/ Optical)	Halfway Press Shutter Button to Autofocus	Electronic Follow Focus (Focus Wheel)	Camera Control Cable Type	Camera Firmware Version	Note

Notes：

1. This table will be updated in line with firmware update and is subject to change without prior notice;

2. For Sony cameras, after connecting stabilizer and camera with control cable, Please first power on the stabilizer and then the camera. Make sure the camera has sufficient power to operate. Optical zoom control is available on the stabilizer when used with motorized lens. Digital zoom control is available on the stabilizer when used with non-motorized lens. Please select zoom option in your camera's settings; Sony A7R3 needs to have the auto power-off start time set to 30 minutes.

3. When shooting Panorama or Timelapse, it is recommended to turn off the camera's auto review (Sony), image confirmation (Canon), auto review (Panasonic), image review (Nikon) to reduce system latency.

4. The Canon DSLR cannot realize the halfway press shutter button to autofocus in Live Preview. If the feature is used, the camera Live Preview mode should be turned off.

5. Before connecting Panasonic G9 with a control cable, please first turn off the USB Power Supply in camera settings.

6. When connecting an Olympus camera to the stabilizer, USB Mode will automatically pops up on the camera. Please select [🖥/📷] (PC (Tether)) and dial the mode to P, A, S, or M mode.

7. "√" means the camera can realize the function after connecting to the stabilizer; "×" means the camera currently cannot realize the function after connecting to the stabilizer, but there're possibilities that the function may open by a firmware update or other ways. "-" means the uncontrollable functions after connecting to the stabilizer is because the camera control protocol is not opened.

WEEBILL 3S Bluetooth Shutter Control Compatibility List

Update on Juen 31, 2023 (Firmware version V1.73)

V1.20

Camera Model	Photo		Video		Live Preview	Shutter Speed Adjustment		Aperture Adjustment		ISO Adjustment		EV Adjustment		Zoom (Digital/ Optical)	Halfway Press Shutter Button to Autofocus	Electronic Follow Focus (Focus Wheel)	Camera Firmware Version	Note
	Save	Playback	Save	Playback		Photo Mode	Video Mode	Photo Mode	Video Mode	Photo Mode	Video Mode	Photo Mode	Video Mode					
Sony α1	√	√	√	√	-	-	-	-	-	-	-	-	-	-	√	-	V1.31
